For of all your I.T. needs, 24 x 7 x 365.

A Self-Assessment Solution that Helps Covered Entities and Business Associates Comply with the latest HIPAA/HITECH regulations

### IN SHORT, YOU ARE AFFECTED.

All medical practices - Doctors, Dentists, chiropractors, Nursing Care, Psychologists, etc. - and their Business Associates that handle Patient Health Information (PHI) are now required to achieve and maintain compliance with regulations set forth in the HIPAA and HITECH Acts. This compliance must be made available for review by auditors and inspectors.

We offer a cost-effective self-assessment tool that helps medical practices and BA's gain control and improve more than 200+ HIPAA/ HITECH compliance points... before they are flagged as problems.

## SOLUTION HIGHLIGHT: EGESTALT™

Providing You With a Step-by Step Approach to Comply with the latest HIPAA & HITECH Regulations... At your own Pace... At your own Speed!

Participate in Cloud-based Self-Assessment Survey	Upload Compliance Documents into your Secure Online Repository	Run Risk and compliance report to generate Action Roadmap	Complete your Compliance Roadmap Action items	Achieve & prove HIPAA / HITECH compliance
<p>Once you have signed up for eGestalt SecureGRC SB, you will be given access to our cloud-based self-assessment survey. Simply login and answer a thorough questionnaire that cover topics such as Privacy, Security and Procedures.</p> <p>While undertaking the survey you will have complete access to extensive online help, sample policies, and best practices that makes answering questions easy even though you many not be an IT or a HIPAA / HITECH expert!</p> <p>As you complete the survey, our software analyzes your responses and gathers your strong (and weak) practice segments. You will have a complete snapshot of your compliance and risk status for your business, online, anytime.</p>	<p>As you go through the assessment, you may be asked to attach evidence, in the form of policies or procedures. If you don't have them, don't worry, we will supply you with samples at no charge. If you have collected compliance documents from your business associates (BA's) or other subcontractors, you will be prompted to upload them into the Secure GRC SB document repository. These will be logged into your compliance documentation as proof of your vendors' HIPAA and HITECH compliance.</p>	<p>Once you have completed the questionnaire, hit "RUN" to generate an action roadmap for your practice. This roadmap will list all of your "to do's" to achieve HIPAA and HITECH compliance. Urgent matters are highlighted in red, and a suggested course of action is explained in detail. You will have the ability to generate a comprehensive compliance and risk report for your practice anytime! We will schedule a live one-on-one phone call to explain any open questions, and provide assistance on how to resolve these issues.</p>	<p>Attack the do-do items at your own pace, remembering that completing this compliance report is required for ARRA funding distribution. If at any point during the process you encounter difficulties, please contact our representative for assistance. This may include process / procedure modifications within your practice, personnel adjustments, training, and / or hardware / software upgrades.</p>	<p><b><i>Congratulations! Your practice is now in compliance with current HIPAA and HITECH regulations!</i></b> Print the HIPAA Report and keep in a prominent location within your office. When applying for ARRA stimulus funding, this report will be required as part of the application process. Access to all the attached evidence is just a mouse click away.</p>

Meet and Exceed the Risk Analysis requirements for EMR Meaningful Use with SecureGRC SB™
